

**narrowing down the spray records request**

10/31/2011 03:54 PM

Hi Scott,

Perhaps it would expedite things for ODF and ODA if we narrowed down the area and dates for the initial application record request. The date range of March 20 through April 19, 2011 corresponds to the month preceding the collection of the urine samples submitted to Dana Barr for analysis. The date range of August 3 through September 2, 2011 would cover the month prior to and during the ATSDR sampling. I don't know what area was encompassed in the 866 sq mi Dale referred to on our last conference call, but the spray records for the area within the coordinates listed below would be a good start.

NE	-123.469	44.22
NW	-123.739	44.22
SE	-123.469	44.076
SW	-123.739	44.076

Total Area: 262 sq miles

Please let me know if you have any questions.

Thanks, Sheila
